

Southern Breezes 1

Living area 71 m²
Terrace areas 32 m²
Attic 19 m²
Total area 122 m²

"Southern Breezes" which represents European planed log architecture at its best, is a natural choice for people who appreciate freedom. The large and numerous windowpanels give plenty of light at all seasons of the year and the slanted inner roof adds to the feeling of spaciousness. Attic space affords a third bedroom, and careful insulation makes the entire unit suitable for year-round occupancy.
